Kristen,

This just came in today. I have not sent it out except to you. The analytical sheets are in the appendix. The figure provides a good overview of contaminants at each well.

Please respond with any comments so I can send them to Bristol. I'd like to provide comments to them in about two weeks if that works.

Have a good weekend.

Bob,

Attached for your review you should find the tech memo summarizing the results of the August 2016 groundwater monitoring event at the Tower Standard site under TO 3012.

Thank you,
